AS

PROFILE / 01

PROFILE SUMMARY

Software Developer delivering web, mobile, API, data-management and analytics solutions for public-sector rural livelihood programs and EdTech. Builds Python/Django REST services, React/React Native interfaces, normalized MySQL/PostgreSQL models, API integrations, RBAC, offline-first field workflows, Power BI reporting and ML applications.

PROFESSIONAL EXPERIENCE

01 / DELIVERY

Software Developer · PMU-IT Unit

TechnoHorizon Co. Ltd. · deployed to Uttar Pradesh State Rural Livelihood Mission (UPSRLM) | Lucknow | Nov 2024–Present

01 Beneficiary Management (BMS)

MySQL 8 master-data layer normalized to 3NF; NRLM LokOS MasterData + Production API sync; active SHG filtering and duplicate elimination across 100% of active SHG-member datasets.

02 API Governance

Jurisdiction-based RBAC for block, district and state users; internal beneficiary-profile APIs provide reusable records and consistent cross-module references.

03 Training Management (TMS)

React.js + Django MIS from Annual Action Planning to batch certification across 125+ centres and 5,000+ batches; GPS registration and required media checks before approval.

04 Attendance Verification

Day-1 biometric eKYC; CSV parsing and processing of 15,000+ daily punch records; attendance calculated from validated IN/OUT logs.

05 Enterprise Sakhi (EPSMS)

React Native Android field app + React.js state dashboard; offline capture/deferred sync, existing/new/no-enterprise workflows and gross-profit/annual-turnover calculations for 6.5 lakh women.

06 Lakhpati Didi (LDMS)

Tracks Potential Lakhpati Didis against 2–3-year Individual Entrepreneurship Plans (AEP/VPRP); photo/document evidence for training, finance and mentoring services.

07 Power BI Analytics

Automated monthly reporting for 75 districts with Power BI Dataflows + DirectQuery, replacing manual Excel workflows and reducing report turnaround by 80%.

SOFTWARE DEVELOPMENT INTERN

Edukhoj Services · Lucknow, Uttar Pradesh · Sep 2023–Mar 2024

- Built 12+ modular React.js components and integrated 15+ Django REST endpoints for student dashboard and course-enrollment workflows.
- Indexed 100k+ PostgreSQL assessment records with Elasticsearch DSL, reducing full-text course-search latency by 45%.
- Handled bulk/external data integration, API tuning and production support; resolved 25+ bugs across 6 bi-weekly sprints, documented OpenAPI schemas for 20+ endpoints, and supported demos, database walkthroughs and knowledge transfer.

TECHNICAL SKILLS

PROGRAMMING
Python · JavaScript · SQL · HTML5 · CSS3

FRONTEND
React.js · React Native

BACKEND / APIs
Django · Django REST Framework (DRF) · FastAPI · Django ORM · REST API development/integration

DATABASE / SEARCH
MySQL 8 · PostgreSQL · Elasticsearch DSL · relational database design · 3NF normalization

DATA / ML
Power BI · DAX · Dataflows · DirectQuery · Streamlit · scikit-learn · Nearest Neighbors · cosine similarity

ARCHITECTURE
RBAC · offline-first synchronization · eKYC · RESTful APIs · 3NF normalization

DEVOPS / WAYS OF WORKING
Docker · Docker Compose · Git · Postman · Agile / Scrum

EDUCATION

MCA · AI/ML & Web Development
Dr. A.P.J. Abdul Kalam Technical University, Lucknow · 2022–2024

BCA · Operating Systems & Emerging Technologies
University of Lucknow · 2019–2022

LANGUAGES

English (Professional) · Hindi (Native)

PROJECTS & RESEARCH

DietEase
ML-based diet recommender · Jun 2024
Content-based food suggestions with scikit-learn Nearest Neighbors + cosine similarity; FastAPI REST, Streamlit UI, Docker and Docker Compose.

Covid Manager
Health management system · Nov 2023
Vaccination scheduling, testing/lab results, notifications and secure certificate/report access. Java · Swing · MySQL · JDBC.

Research Paper
Evolution of Business Strategies through Digitalization · Jun 2023
Reviewed AI/ML, quantum computing, blockchain, CRM, RPA, big data and BI; effects on automation, operations and strategic decisions.

TOOLCHAIN

Python · React · Django · SQL · Power BI · FastAPI · Docker

6.5 lakh women · 75 districts · 80% faster reporting
